
Compute scaling: Historical Transformer — trend LR vs per-dim LR
Historical Transformer (trend LR) frontier
Historical Transformer (trend LR) fit: 9.94e+01·C^(-0.096), R²=0.935
Historical Transformer (per-dim LR) frontier
Historical Transformer (per-dim LR) fit: 6.41e+01·C^(-0.083), R²=0.900
Validation Loss − Irreducible
